

- AD BT- Adapting bitufted
- AD BT-CR- Adaptive (resembles bitufted, calretinin positive)
- AD BT MC- Adaptive bitufted Martinotti-like
- AD NP- Adaptive Non-Pyramidal
- AD PYR- Adaptive Pyramidal
- AD SBC- Adaptive (resembles small basket cell)
- AD SOM- Adaptive somatostatin immunopositive
- BC- Basket Cell
- BP- Bipolar
- BP ChAT- Bipolar choline acetyltransferase positive
- BP VIP- Bipolar vasoactive intestinal polypeptide-immunoreactive
- BT SOM- Bitufted Somatostatin Immunopositive
- CC PYR- Cortico-cortical Pyramidal
- CT PYR- Cortico-thalamic Pyramidal
- DBC- Double bouquet cell
- FS- Fast-spiking
- FS PV- Fast-spiking parvalbumin immunopositive
- FS MP PV- Fast-spiking multipolar parvalbumin immunopositive
- IBPYR- Intrinsic Burst Firing Pyramidal
- LBC- Large Basket Cell
- LINT- Large Interneuron
- LS- Late-Spiking
- LTS- Low threshold spiking
- LTS BT- Low threshold spiking, bitufted cell
- MC- Martinotti Cell
- MP PV- Multipolar parvalbumin immunopositive
- NBC- Nest basket cell
- PYR- Pyramidal
- PYR-C- Complex Pyramidal
- PYR-S- Simple Pyramidal
- RS DT- Rebound-spiking dendrite-targeting
- S-PYR- Star Pyramidal
- SSC- Spiny Stellate Cell
